

CEMENT PRODUCTS

BLENDED CEMENTS

RAMCO
SUPERGRADE

RAMCO

SUPERGRADE

APPLICATIONS

- For ordinary and standard concrete
- Plastering

BENEFITS

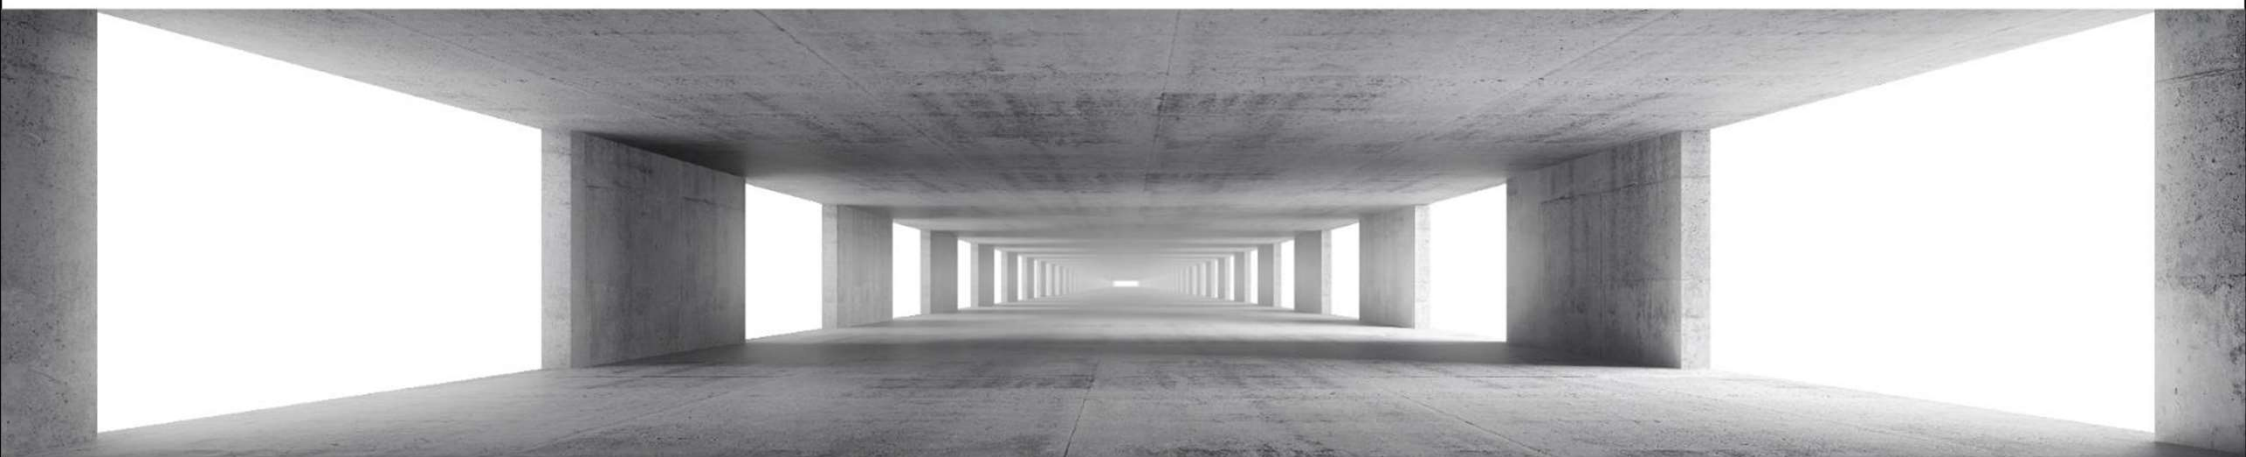

- High durability

RAMCO
PREMIUM

EFC
• CEMENT •

RAMCO **PREMIUM**

APPLICATIONS

- For standard concrete

BENEFITS

- Crack-free
- Good finish
- High durability

RAMCO
SUPER STEEL

RAMCO

SUPER STEEL

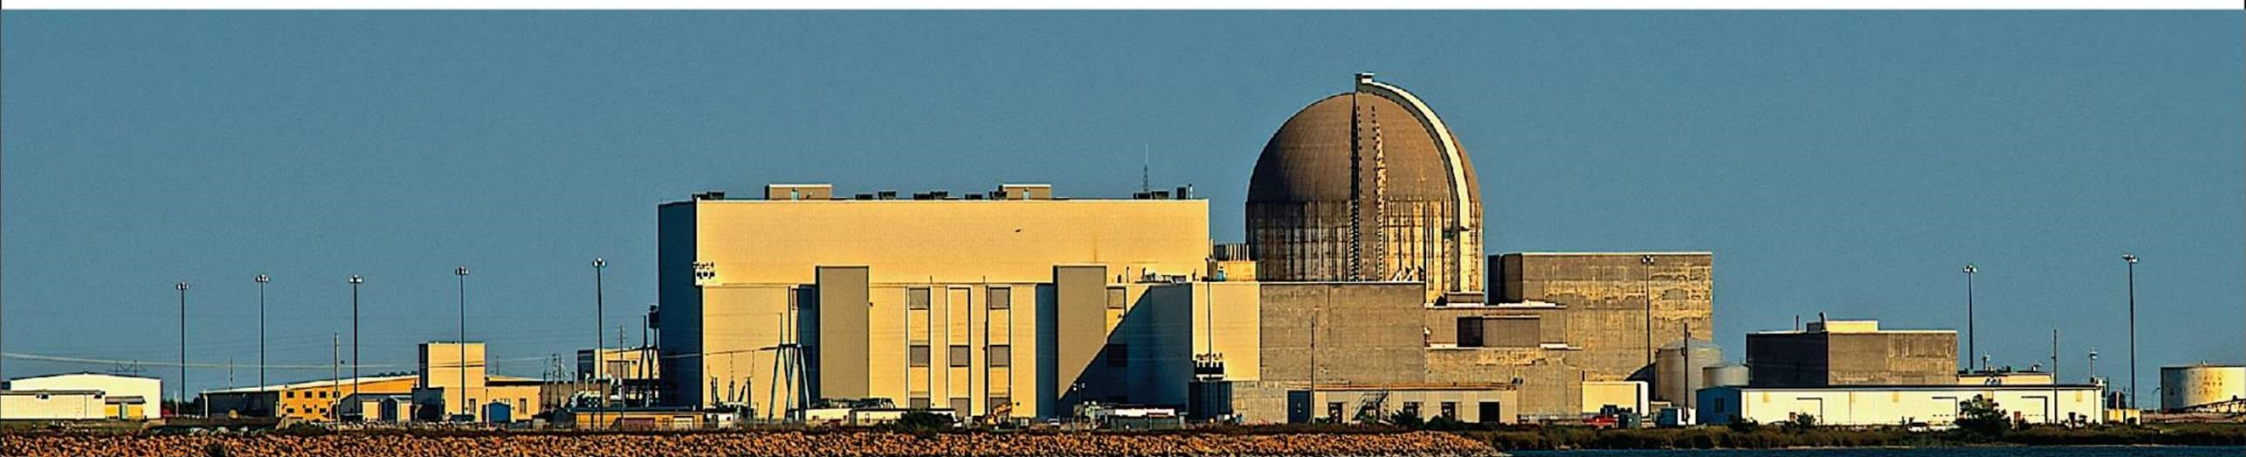

APPLICATIONS

- For high strength concrete
- Smoother finish with plastering

BENEFITS

- Low heat of hydration
- High early strength

APPLICATIONS

- For high strength concrete
- Suitable for structures like nuclear power projects

BENEFITS

- High early strength
- High durability
- Crack-free

CEMENT PRODUCTS

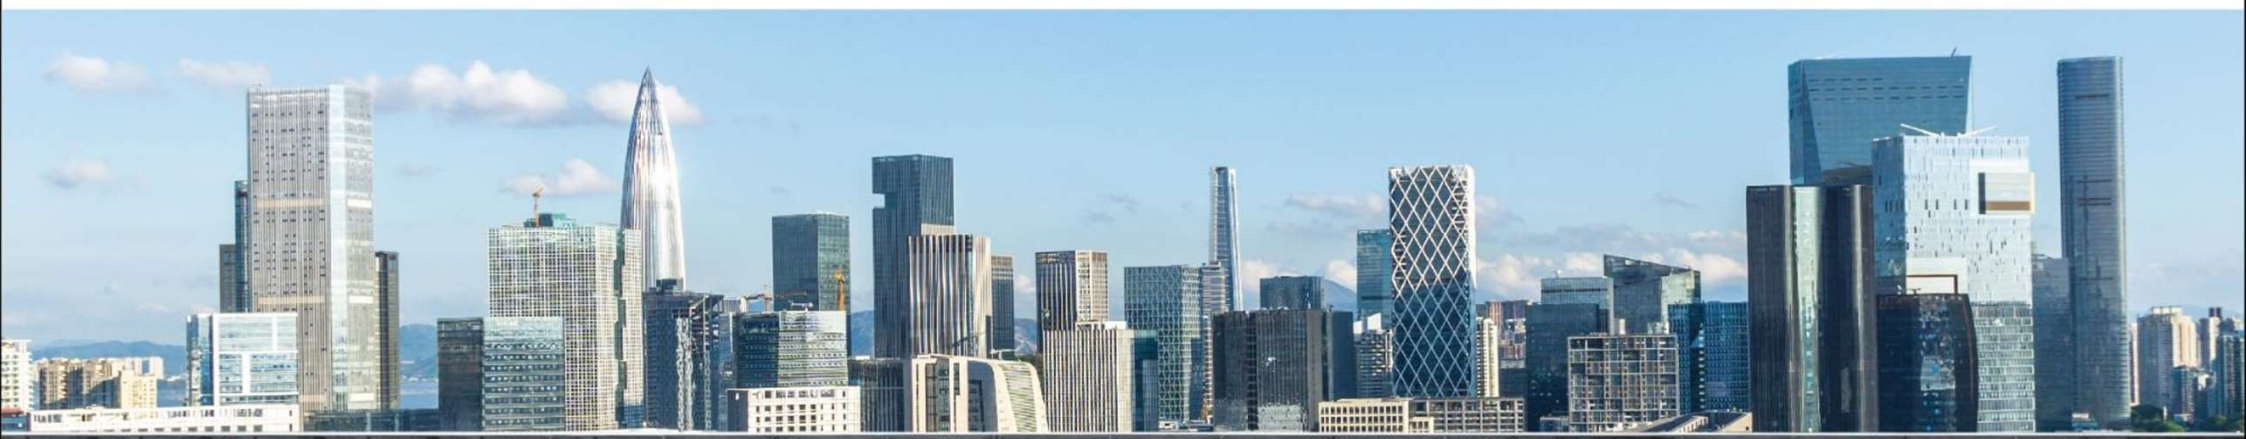

ORDINARY PORTLAND CEMENTS

RAMCO
43 GRADE

RAMCO

43 GRADE

APPLICATIONS

- For high strength concrete
- Suitable for cement sheets

BENEFITS

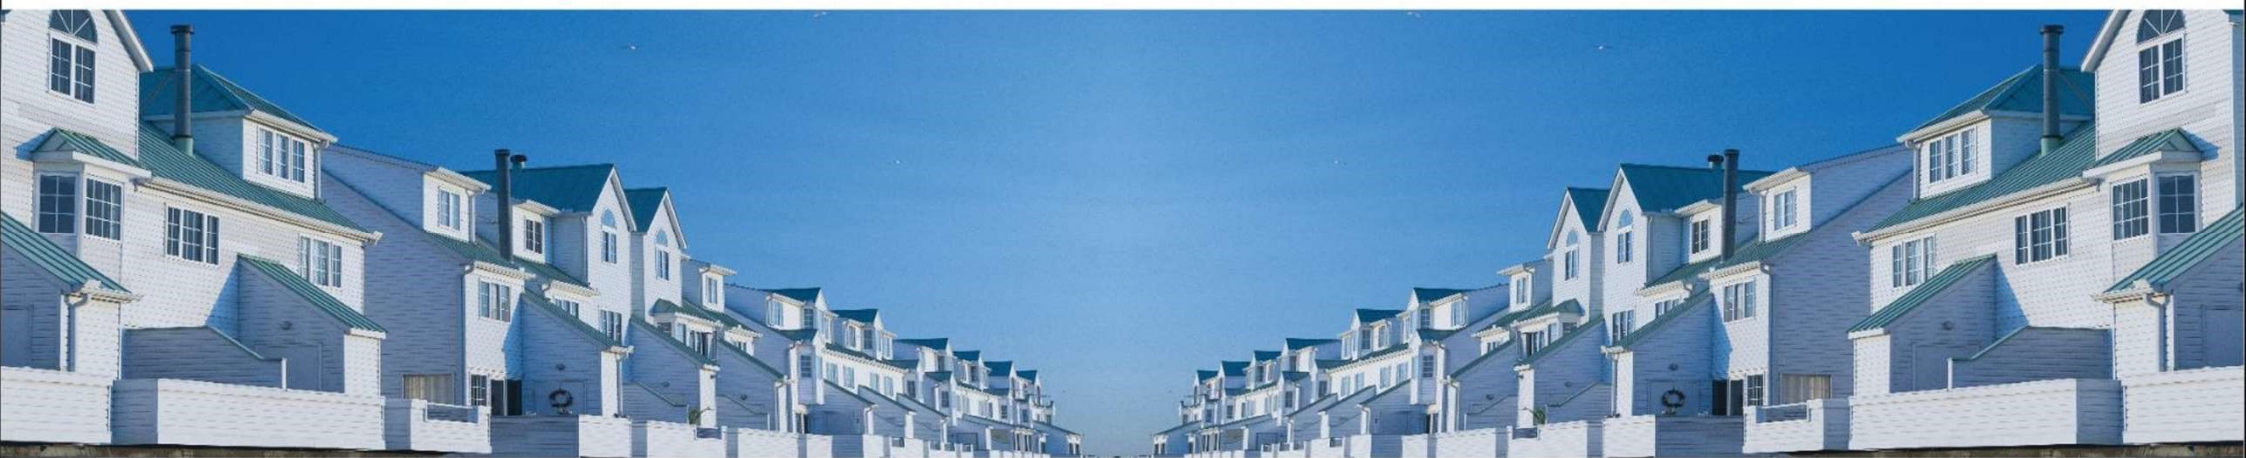

- Quick set
- High early strength

RAMCO
53 GRADE

RAMCO

53 GRADE

APPLICATIONS

- For high strength concrete

BENEFITS

- For early removal of form work
- High early strength

RAMCO
INFRA
43 GRADE

RAMCO INFRA

43 GRADE

APPLICATIONS

- For high strength concrete
- For structures like nuclear power projects

BENEFITS

- Low heat of hydration
- High early strength
- High slump retention
- Crack-free

**RAMCO
INFRA**
53 GRADE

RAMCO INFRA

53 GRADE

APPLICATIONS

- For all infrastructure projects like bridges, flyovers, tunnels and pre-stressed concrete applications

BENEFITS

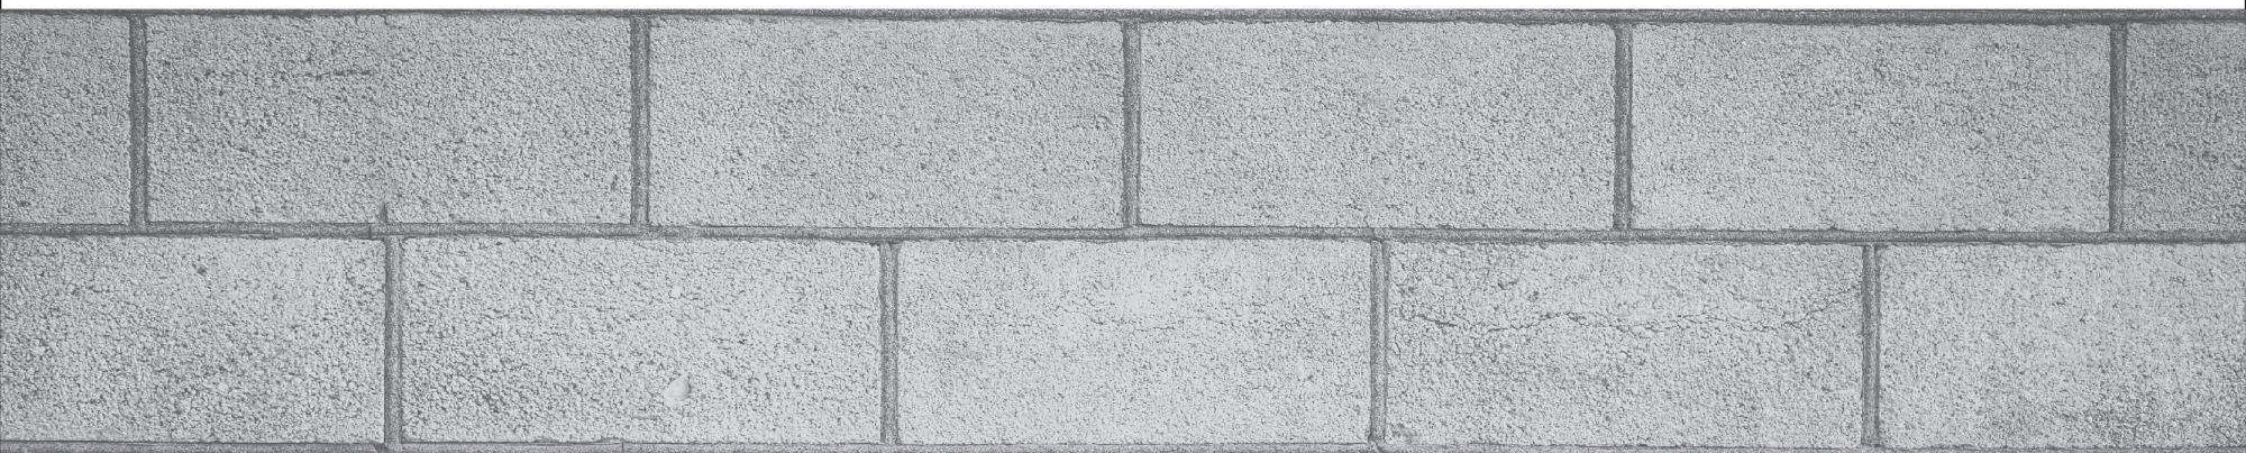

- Early removal of form work
- High early strength
- High slump retention

RAMCO
SUPER FAST

RAMCO

SUPER FAST

APPLICATIONS

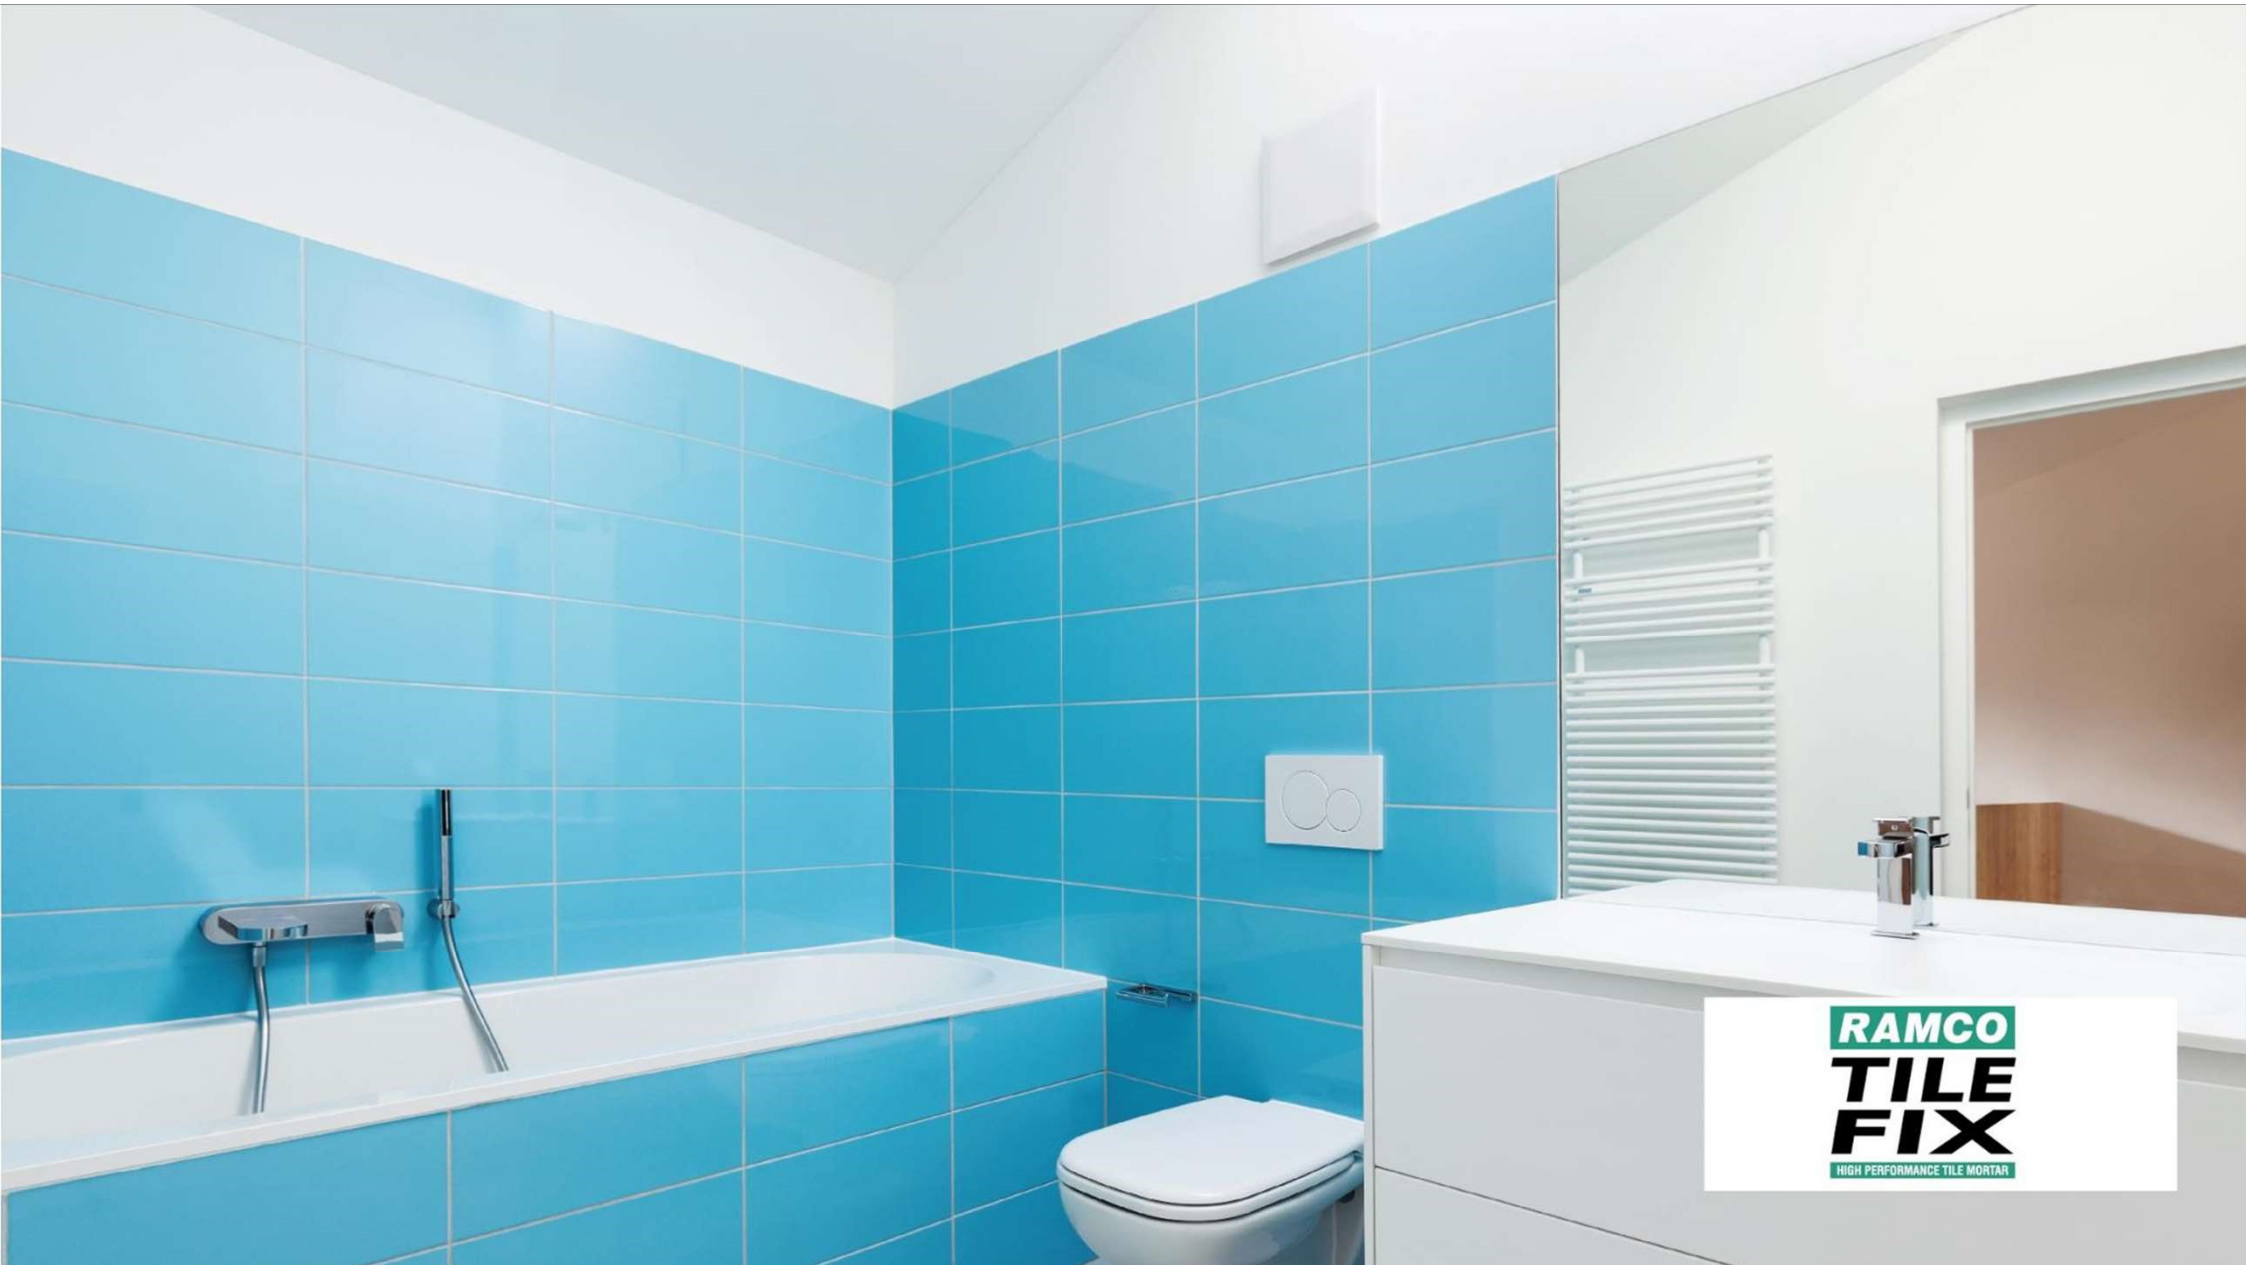

- For paving blocks, hollow blocks, solid blocks and other pre-cast materials

BENEFITS

- Rapid Hardening
- Early removal of form work
- Crack-free edges

**DRY MIX
PRODUCTS**

RAMCO
TILE
FIX
HIGH PERFORMANCE TILE MORTAR

RAMCO
TILE
FIX
HIGH PERFORMANCE TILE MORTAR **T2**

APPLICATIONS

- For fixing ceramic tile wall, floor and vitrified tile floor

BENEFITS

- Improved cohesive strength
- Longer open time

RAMCO
TILE
FIX
HIGH PERFORMANCE TILE MORTAR **T3**

APPLICATIONS

- For tile on tile application

BENEFITS

- Improved flexibility to prevent cracks
- Meets C2 classification for $> 1.00\text{N/mm}^2$

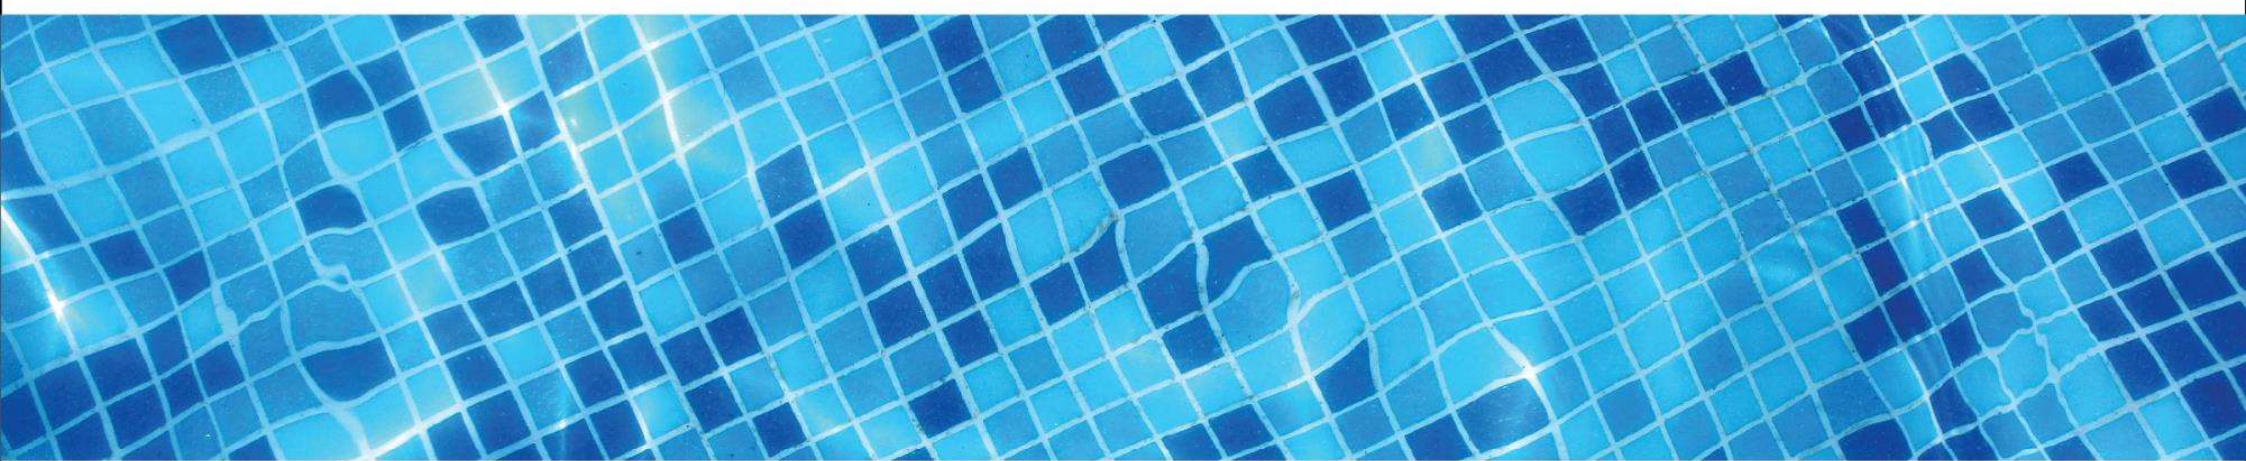

APPLICATIONS

- For granite and marble internal application
- For underwater applications
- Floor repairing applications

BENEFITS

- Meets C2 classification for $> 1.00\text{N/mm}^2$
- Improved open time
- Excellent adhesion property

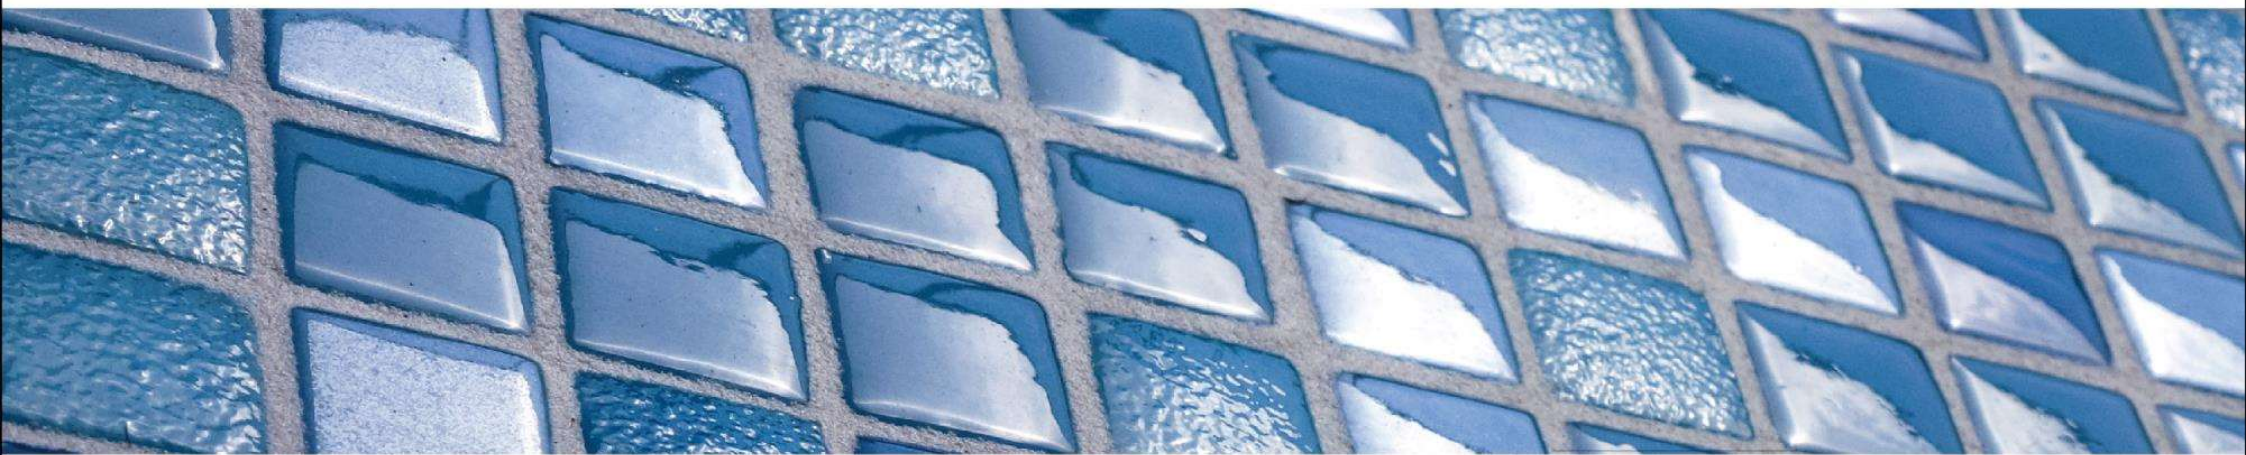

APPLICATIONS

- For granite wall and large tile external cladding
- For underwater applications

BENEFITS

- Improved open time
- Excellent adhesion property
- Meets C2 classification for $> 1.00\text{N/mm}^2$

RAMCO
TILE
FIX
HIGH PERFORMANCE TILE MORTAR **T6**

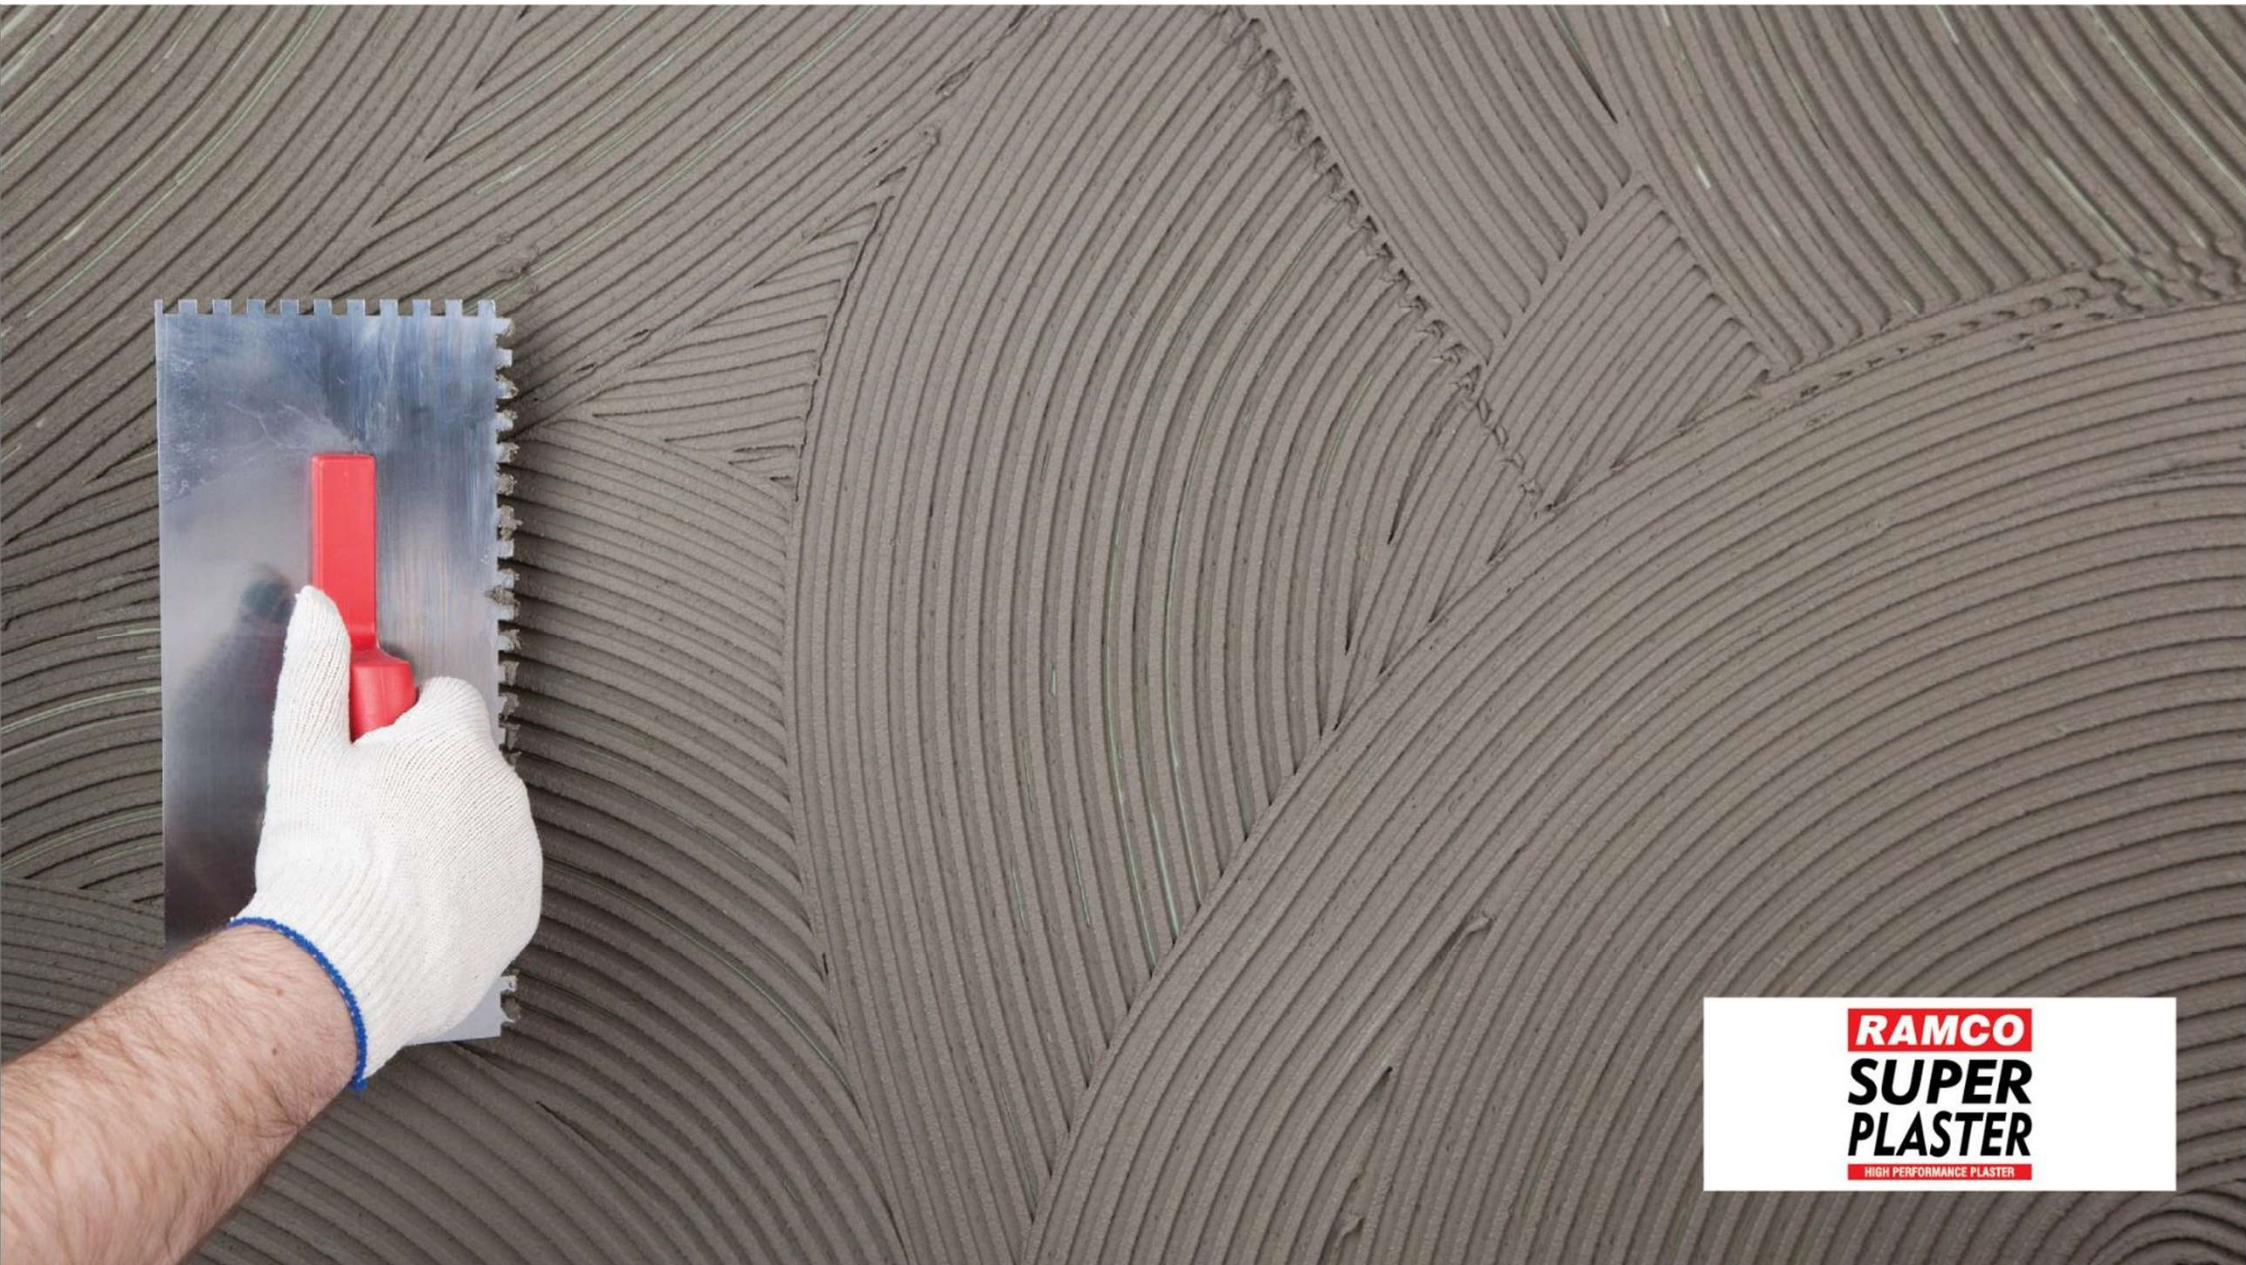

APPLICATIONS

- For fixing glass mosaic and marble

BENEFITS

- Excellent water absorption resistance for swimming pools etc
- Excellent adhesion property

RAMCO
SUPER
PLASTER
HIGH PERFORMANCE PLASTER

RAMCO
SUPER
PLASTER
HIGH PERFORMANCE PLASTER

GPP2 - APPLICATIONS

- For plastering - internal and external

BENEFITS

- Improved durability
- Uniform batch to batch consistency

RAMCO
**SUPER
PLASTER**
HIGH PERFORMANCE PLASTER

WRP - APPLICATIONS

- For external plastering with water repellency

BENEFITS

- Has high degree of water repellence
- Better workability

RAMCO
SUPER
PLASTER
HIGH PERFORMANCE PLASTER

RAMCO
**SUPER
PLASTER**
HIGH PERFORMANCE PLASTER

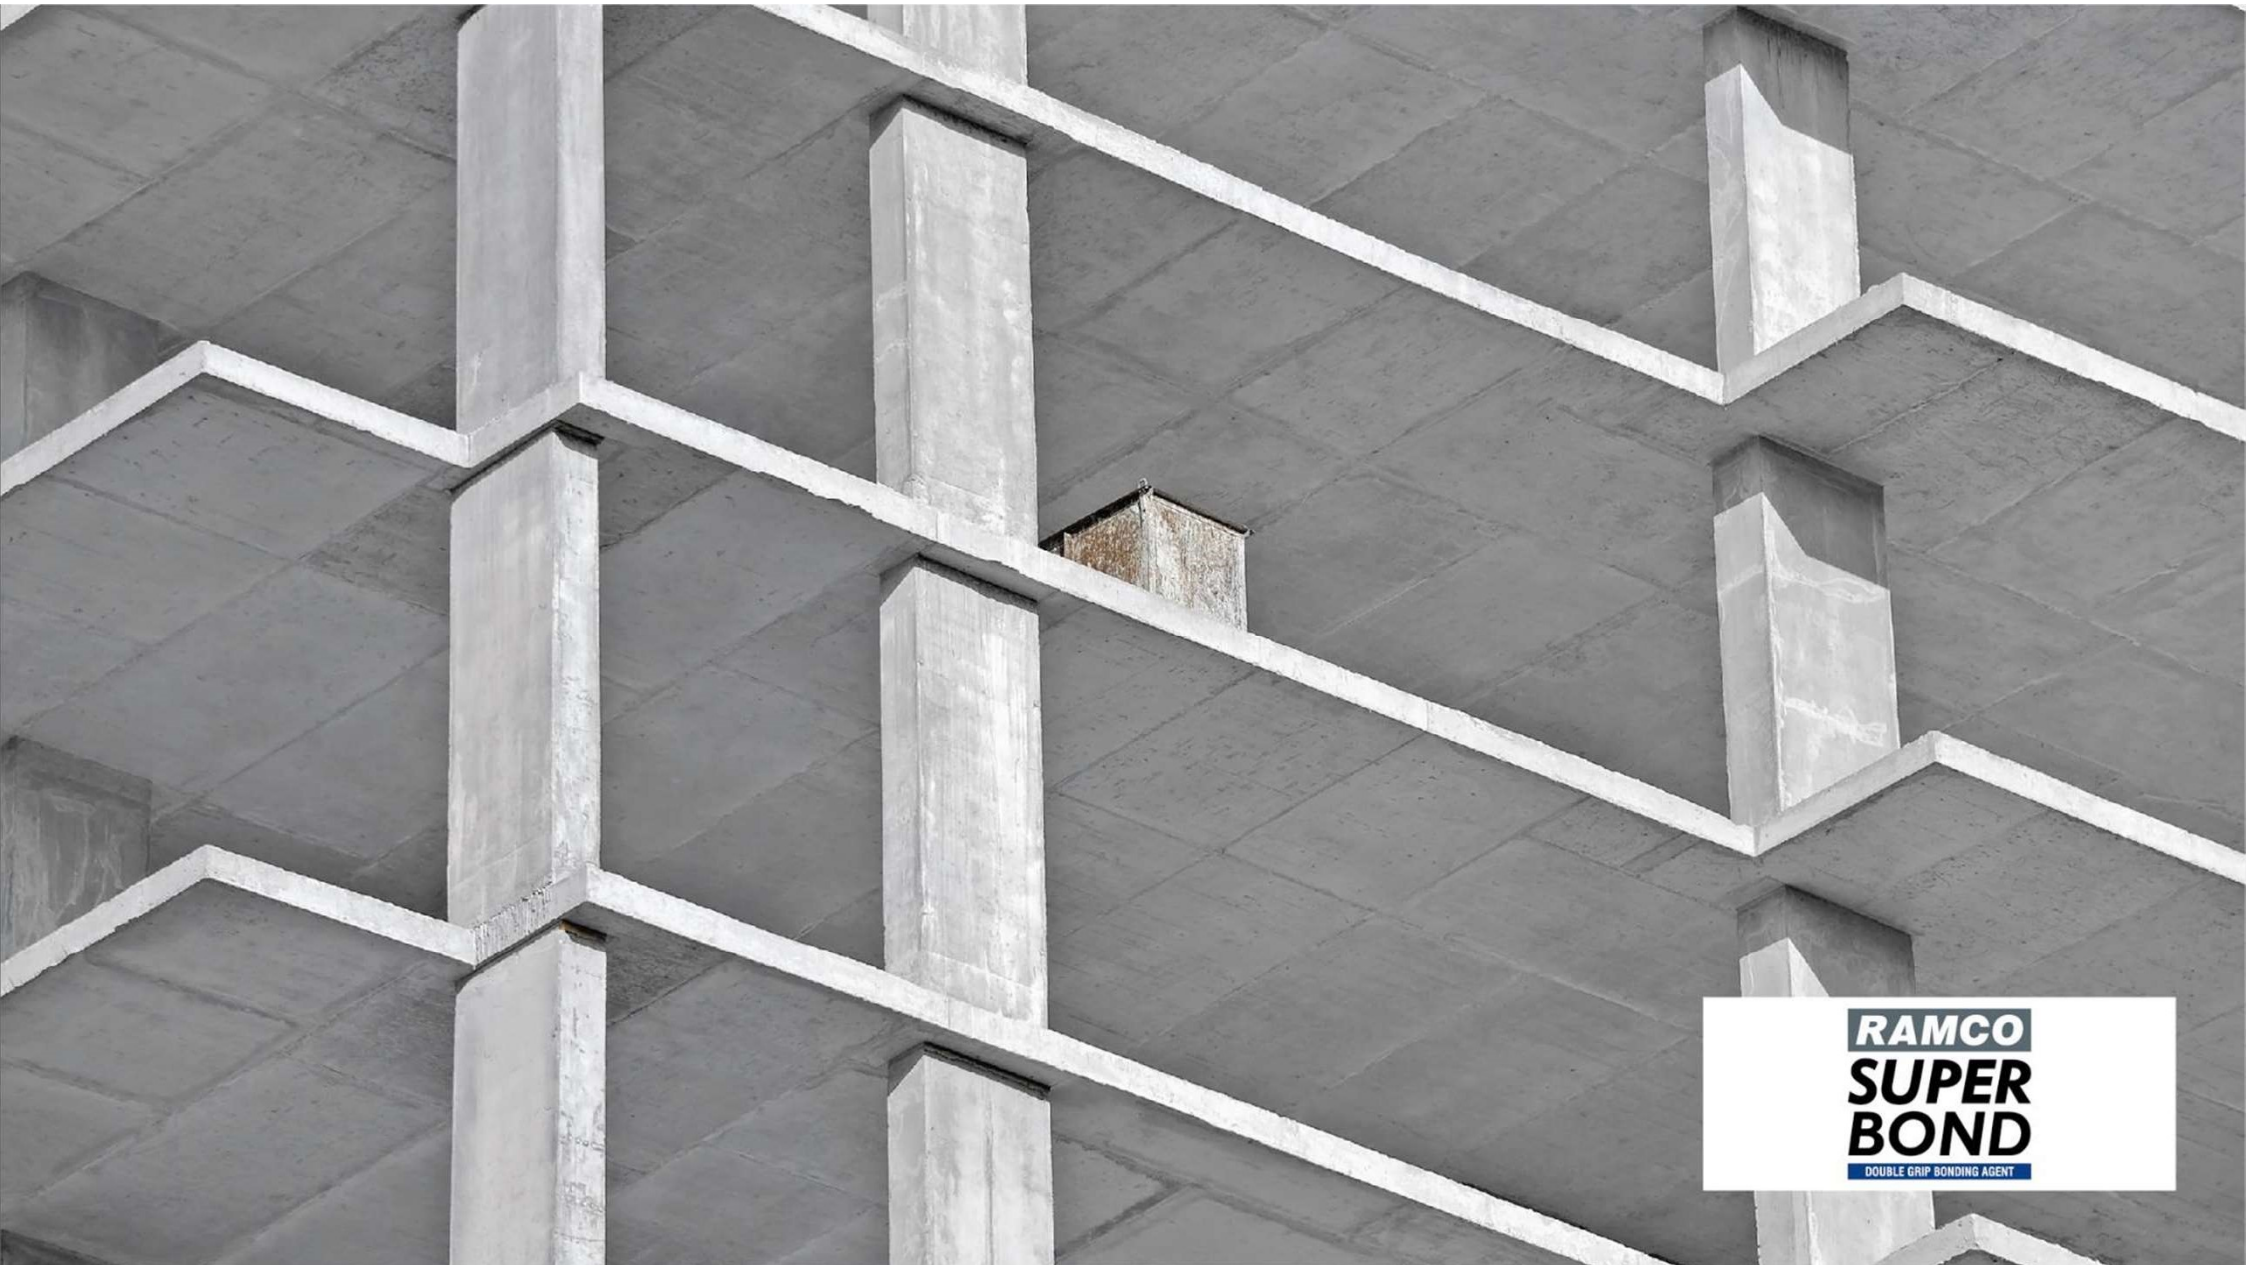

APPLICATIONS

- For plastering - internal and external

BENEFITS

- 100% avoids manual curing
- Better crack resistance
- Reduces labour cost

RAMCO
SUPER
BOND
DOUBLE GRIP BONDING AGENT

RAMCO
SUPER
BOND
DOUBLE GRIP BONDING AGENT

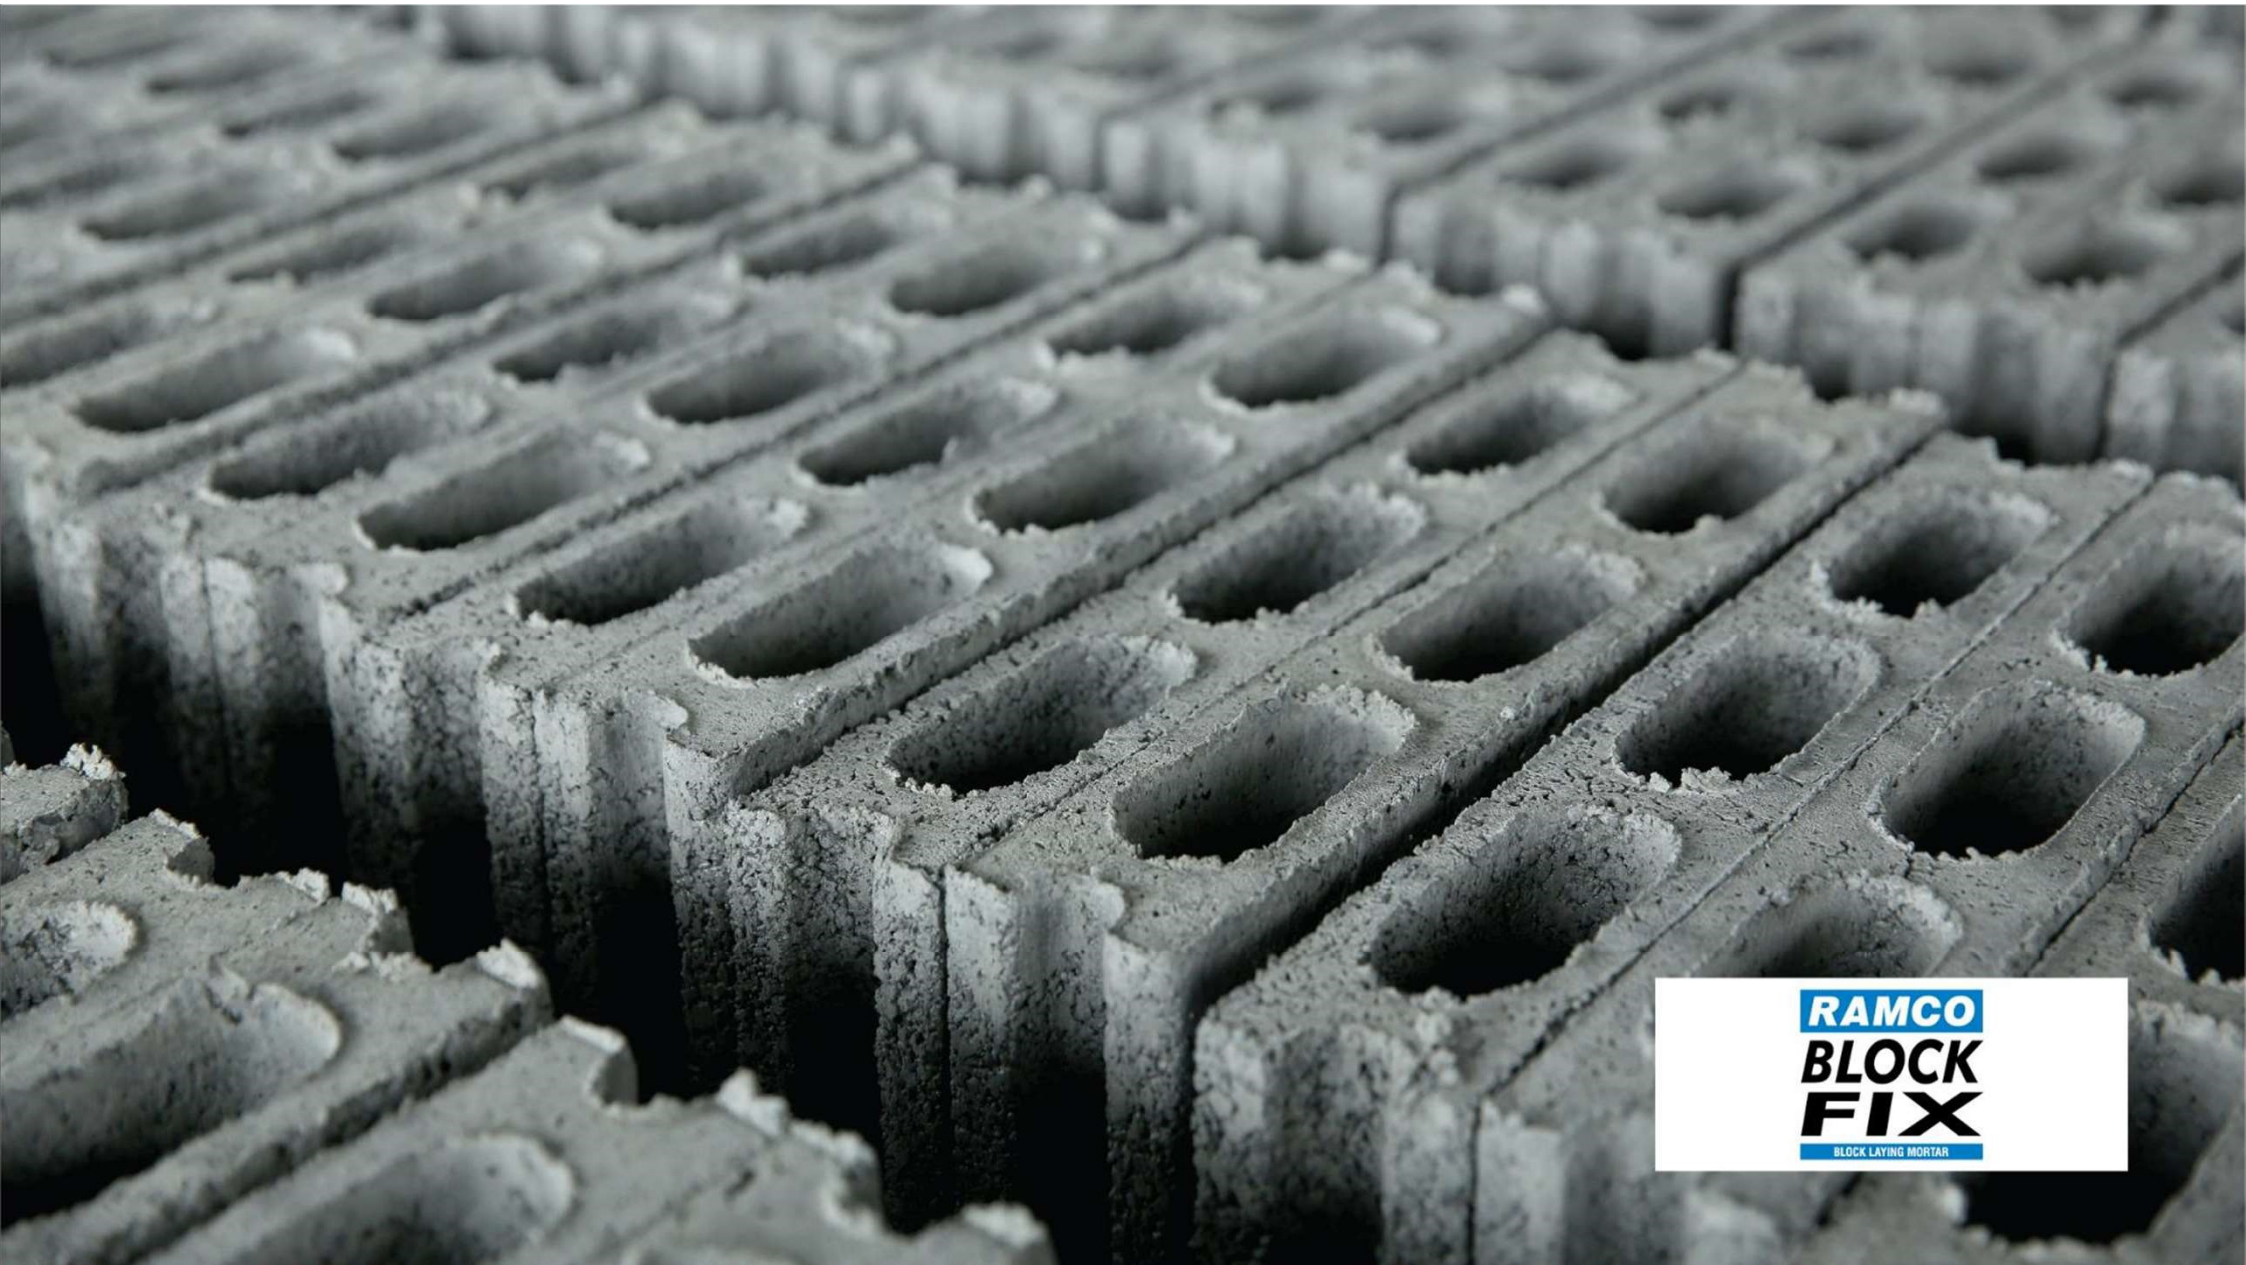

APPLICATIONS

- Bonding agent for concrete surface

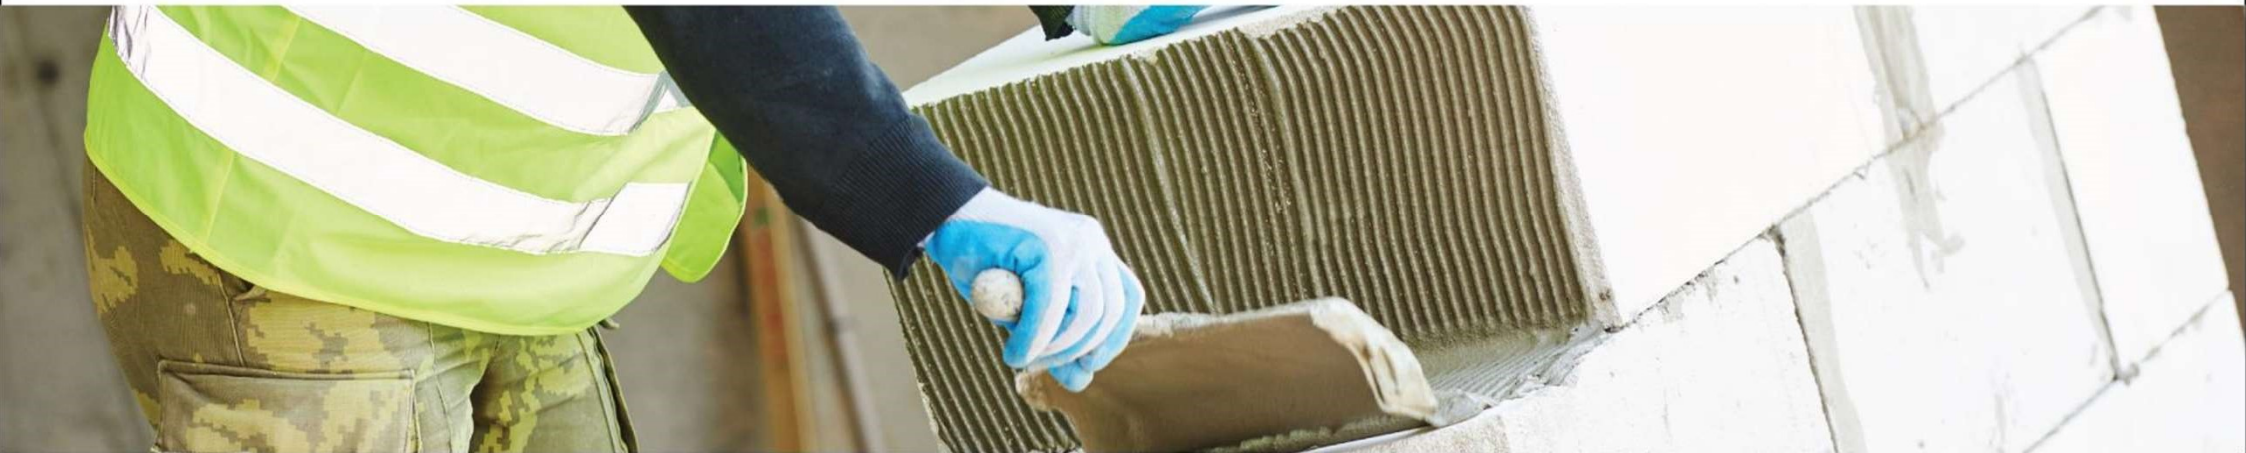

BENEFITS

- Excellent bonding strength
- Hacking not required while plastering the concrete surfaces
- Double grip bonding
- Time saving

RAMCO
BLOCK
FIX
BLOCK LAYING MORTAR

RAMCO
BLOCK
FIX
BLOCK LAYING MORTAR

APPLICATIONS

- For fixing AAC / Solid blocks

BENEFITS

- Excellent adhesion strength
- Self curing
- No shrinkage cracks

RAMCO
SUPER
FINE
CEMENT-BASED PUTTY

RAMCO
**SUPER
FINE**
CEMENT-BASED PUTTY

APPLICATIONS

- White cement based water repellent Wall Putty

BENEFITS

- Excellent bonding to plaster
- Good hydrophobic nature
- Improved breathability
- Excellent crack resistance

RAMCO
TILE
GROUT
CEMENT POLYMER GROUT

RAMCO
TILE
GROUT
CEMENT POLYMER GROUT

APPLICATIONS

- Interior and exterior, floor and wall tiles

BENEFITS

- Higher flexibility
- Improved abrasion resistance
- Higher hydrophobicity
